GARDA

DESIGNED BY
TIAGO CURIONI

GARDA

The Garda chair embodies a synthesis of constructive clarity and organic gesture. Its lines flow seamlessly, while the curved, openwork backrest conveys sculptural character and lightness. The seat introduces warmth and tactile comfort, balancing rigor with softness. Inspired by the tranquility of Lake Garda, the piece expresses a serene elegance, in which every detail reflects a precise dialogue between form, material, and sensibility.

STRUCTURE

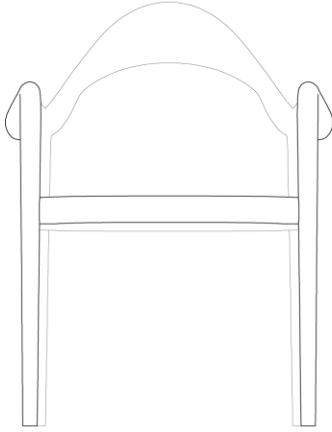

The Garda chair is structurally conceived through the modeling and machining of selected solid wood of the highest quality. The comfort of the backrest is enhanced by the shaping and curvature of the wood itself, while the seat incorporates natural cotton straw structured with aramid.

FINISHES/UPHOLSTERY

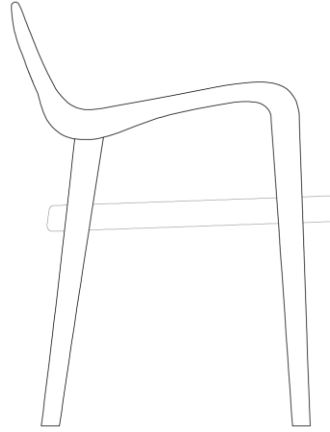

Available finishes and upholstery options are offered according to the price list. A wide variety of finishes and fabrics allow for the creation of unique pieces.
