BUDDY

DESIGNED BY
ESTÚDIO UULTIS

B U D D Y

The Buddy sofa offers a wide range of possibilities, from the elegance and softness of the shapes, to the comfort and practicality of its design. The Buddy love seat was able to uniquely combine the simple shapes of a living room love seat with all the comfort of a retractable sofa.

COMFORT SYSTEMS

The comfort system of foam are composed by different densities and foam types, providing a great weight support and good resilience. Sometimes it can also include a molded piece of layer glued that helps to achieve a better comfort. All the foams are produced with high quality, proven efficiency and the best part: Ecologically right (low CFC emission).

STRUCTURE

Solid wood structure fixed with metal staples and PVA glue (suitable for wood). *The backrest cushion is composed of layers of high density foam and soft foam wrapped in an ecosoft foam layer. The front backrest cushions are filled with polyester fiber, soft to the touch and have greater resilience. The foam layers of the seat are composed of medium and high density foam surrounded by a layer of ecosoft foam, ensuring softness and is soft to the touch, providing a unique feeling of comfort and coziness when sitting.*
