P I N

DESIGNED BY  
SÉRGIO BATISTA

# P I N

---

Pin is a dining table which caused a surprising impact at first sight. Its structure reminds one of the corridors of gothic castles. Its columns open at the top, allowing other pre-established configurations.

*Pin is a dining table whose unique design makes it a unique piece capable of adding luxury and beauty to any decoration. In the image next to the Esc chair.*

## STRUCTURE

*Dining table with MDF structure top, with laminated finishing on the top and painting on the sides. It has legs in turned solid wood with enameled finishing or in natural wood.*

## FINISHINGS
