RAÍZES

DESIGNED BY
SÉRGIO BATISTA

RAÍZES

Inspired by the majestic Banyan Tree, the Roots table evokes the energy of nature and the vitality of a design that connects with the essence of life. The sinuous and elegant forms of the base reflect the harmony of intertwining roots in a spectacle of connection with the earth, while the tabletop celebrates the unity that a shared table provides.

STRUCTURE

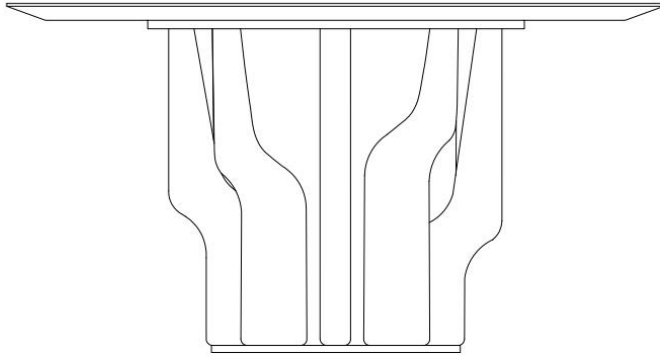

The structure is composed of a selected high quality solid wood base creating the curves and volumes of the set. The top is made of MDF, with a natural wood blade and chamfered edges, which give a differentiated finish to the piece, enhancing its identity.

FINISHES/COATING

Finishes and coating available according to the price list. There is a wide variety of finishes and coating available to create unique pieces.
