---

The Raco coffee table is a link between two worlds – the dynamic and the serene. Its elegant and multifunctional design features straight lines and geometric shapes, referencing the structure and order of urban architecture. At the same time, it incorporates natural materials such as wood and cane, conveying the calmness and solidity of the natural landscape.

## STRUCTURE

*The Raco side table seamlessly combines iron and wood, showcasing its dynamic character through the use of these materials. Structurally, it features a metal support paired with a high-quality solid wood base. The top, also made of wood, can be customized with a detail in natural cotton straw, glass, or mirror.*

## OPTIONS

*Lacquered metal base / Laminated metal base*

*Glass top detail / Mirror top detail / Natural straw top detail*

## FINISHES/COATINGS

*A wide variety of finishes is available, as outlined in the price list, allowing for the creation of unique and customized pieces.*

## COMPOSITION

*Base/Decoration/Top + Base Support*
