ARUÃ

DESIGNED BY  
SÉRGIO BATISTA

# ARUÃ

---

The Aruã Chair is an invitation to explore the essence of nature and the fluidity of waters, a homage to the Aruanã, a fish that gracefully glides through the rivers of the Amazon. It carries with it a sense of lightness and movement, just like the fish that moves harmoniously in the waters. Its elegant and ergonomic design embraces the body like a gentle current, providing comfort and sophistication.

## STRUCTURE

*The structure is composed of selected high-quality solid wood. The comfort of the seat is provided by high-density foam, while the ergonomics of the backrest are favored by the curvature and modeling of the wood and the soft touch of natural cotton straw.*

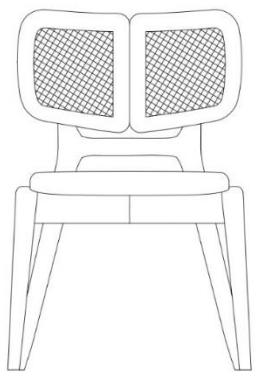

## FINISHES/COATING

*Finishes and coating available according to the price list. There is a wide variety of finishes and coating available to create unique pieces.*
