URCA

DESIGNED BY  
SÉRGIO BATISTA

# URCA

---

Capturing the essence of the hills of Rio de Janeiro, it stands out with a backrest composed of two cylindrical volumes that represent the harmony of the Dois Irmãos Hill.

## STRUCTURE

*The Urca chair features a carefully selected, high-quality solid wood structure. The seat ensures comfort with a combination of medium- and high-density foam, while the backrest's ergonomics and support are enhanced by medium-density foam upholstery.*

## FINISHES/COATINGS

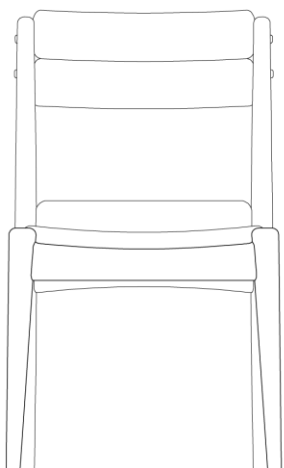

*A wide range of finishes and coatings is available, as outlined in the price list, allowing for the creation of unique and customized pieces.*
