BARDI

DESIGNED BY
SÉRGIO BATISTA

BARDI

Inspired by the architecture of the São Paulo Museum of Art (MASP), its rectangular backrest evokes the iconic facades designed by Lina Bo Bardi. The design harmonizes urban elements with the serenity of nature through its soft upholstery.

ESTRUTURA

The structure of the Bardí chair is made from carefully selected, high-quality solid wood. The seat's comfort is ensured by high-density foam, while the ergonomics and comfort of the backrest are enhanced by upholstery with medium-density foam.

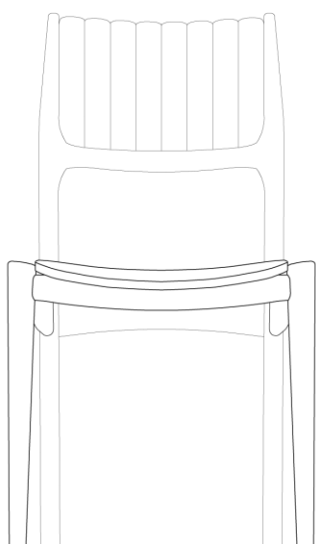

ACABAMENTOS/ REVESTIMENTOS

Finishes and coatings are available according to the price list. A wide variety of finishes and coatings allows for the creation of unique pieces.
