GAMBOA

DESIGNED BY
SÉRGIO BATISTA

GAMBOA

Inspired by the cultural diversity and creative vitality of the neighborhood it's named after, where classic architecture coexists harmoniously with modern spaces and natural landscapes, the Gamboa Chair captures this eclectic and cosmopolitan essence. It offers a design that is both sophisticated and inviting.

STRUCTURE

The structure is made of carefully selected high-quality solid wood. The comfort of the seat is provided by high-density foam, while the ergonomics of the backrest are enhanced by the curvature and design of the wood, combined with upholstery made of medium-density foam.

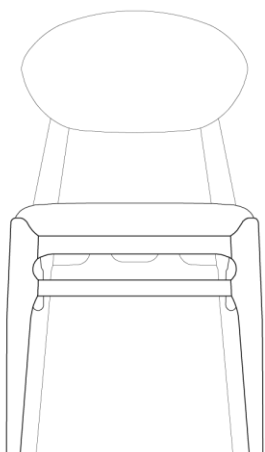

FINISHES/COATINGS

Finishes and coatings are available according to the price list. There is a wide variety of finishes and coatings to create unique pieces.
