CIGNO

DESIGNED BY
SÉRGIO BATISTA

CIGNO

Inspiration, breathability, and coziness: the Cigno sofa is full of comfort, as its seat and backrest feature elastic webbing and medium-density foam covered with Ecosoft foam padding. The backrest cushions are also detachable and composed of polyester fiber and foam flakes. In terms of structure, the sofa is made from sustainably sourced eucalyptus wood and MDF panels, with super durability that prevents creaking. Adding to all of this, it has solid wood arms and legs, which provide an even more modern look.

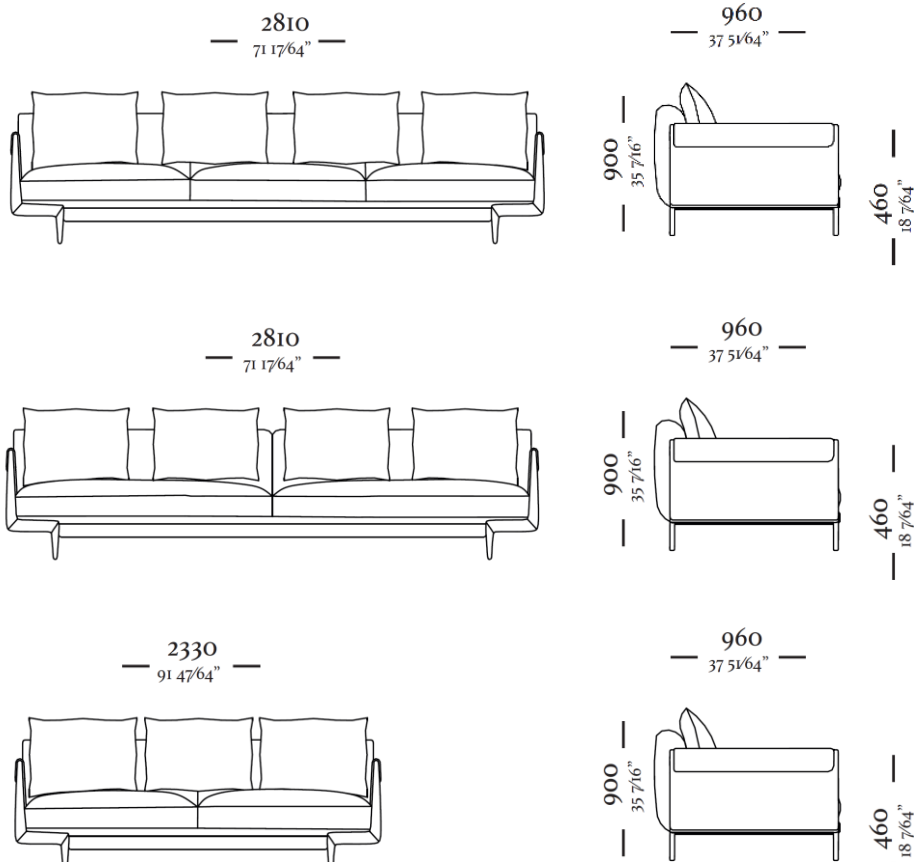

STRUCTURE

The structure is made of solid high-quality wood and high resistant particle board. The arms and feet are made of solid wood. The comfort is offered by elastic web system allied with medium density foam. The backrest cushions are filled with polyester fiber.

FINISHES/COATING

Finishes and coating available according to the price list. There is a wide variety of finishes and coating available to create unique pieces.
