CONNECT

DESIGNED BY
ESTÚDIO UULTIS

CONNECT

The Connect sofa allows compositions that range from formal to relaxed and can be transformed into a pleasant sofa for face-to-face conversations, a chaise longue for reading and relaxation, or even a large open and independent bed. The design of the Connect sofa has a discreet elegance thanks to the combination of its smooth flow and rigid shapes and lines.

COMFORT SYSTEMS

Web suspension system its perfect to connect the structure of the seat or backrest to the confort layers. The elastic webbing are tensioned in order to provide the necessary support for foam, providing a better performance and durability for your upholstered furniture.

STRUCTURE

Upholstered with a structure made from solid reforestation wood, the loose backrests have high quality MDF panels. The structure is fixed with metal staples and PVA glue (suitable for wood). The seat has high and medium density foams wrapped in an ecosoft foam layer, over a layer of elastic straps that ensure support, performance and durability of the foam layers. Loose backrests have medium and high density foam. Loose cushions are filled with polyester fiber. The side table has a metal structure fixed with welding and metal screws. The top is MDF with a natural wooden veneer.

FINISHES/COVERINGS

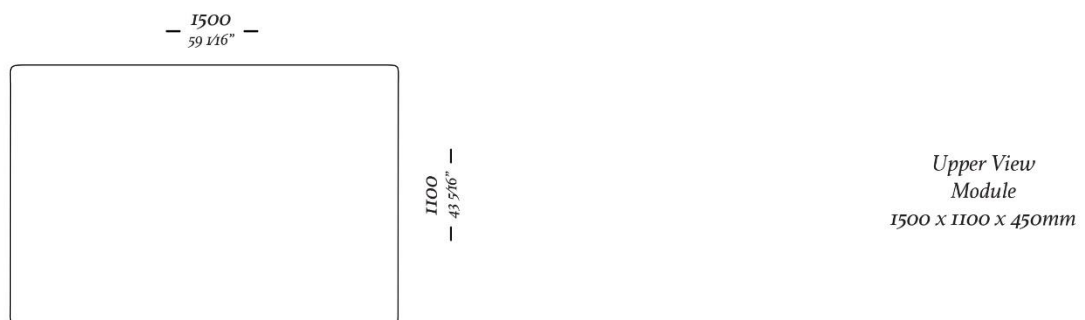

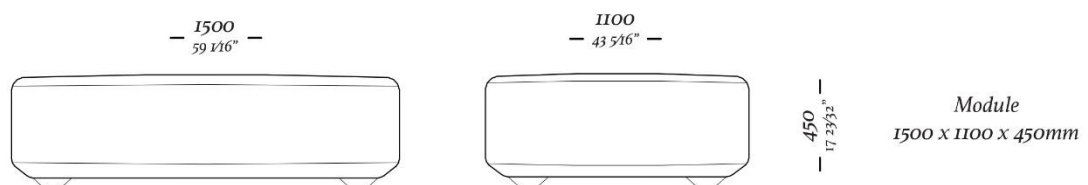

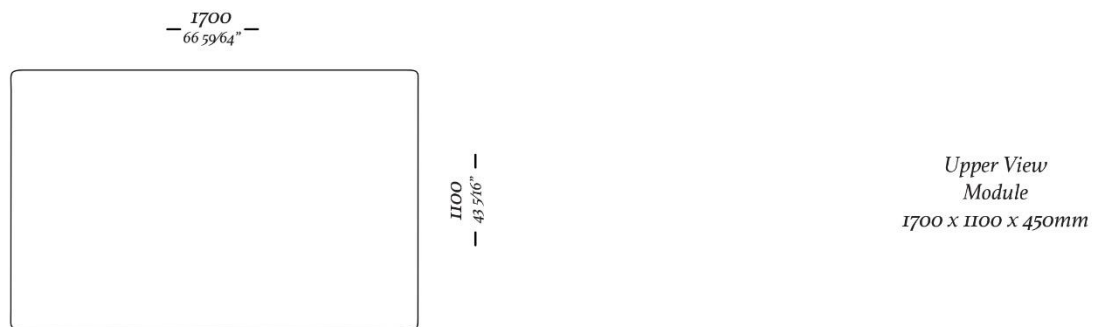

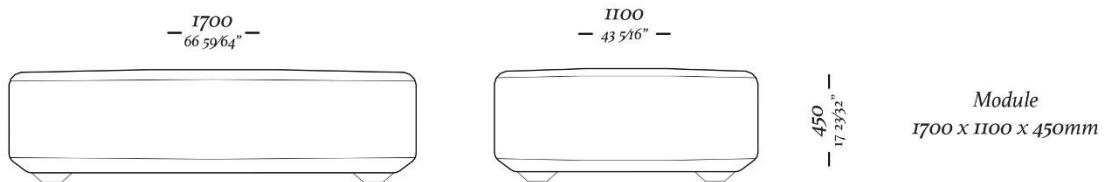

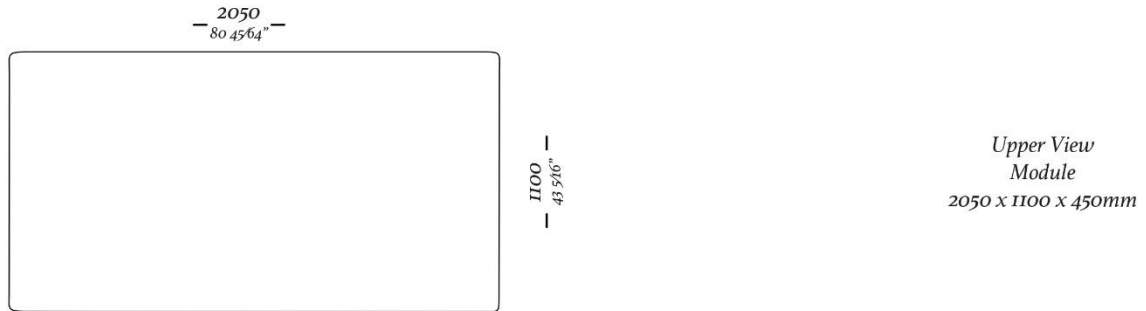

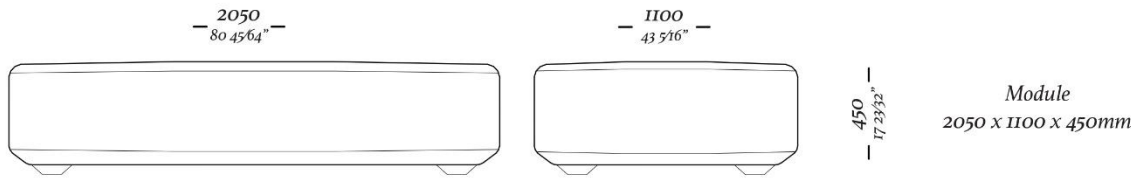

Finishes and coverings available according to the price list. It is a wide variety of finishes and coverings to compose unique pieces.

COMPOUNDS

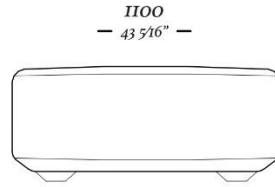

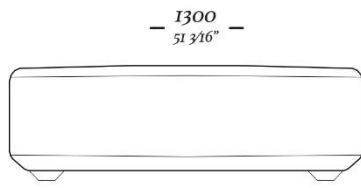

In the modules: BASE/ SEWING

*In the loose backrests: BASE/ SEWING/
DECORATIVE CUSHION*
