GÁVEA

DESIGNED BY
SÉRGIO BATISTA

GÁVEA

The Gávea Sofa is a piece of furniture that combines the grandeur of nature with the sophistication of contemporary design. Inspired by the majestic Pedra da Gávea, one of the most iconic landmarks of Rio de Janeiro, this sofa brings the magnificence and charm of rocky formations into the heart of the home.

STRUCTURE

The structure is made from carefully selected high-quality solid wood. The comfort of the seat is provided by elastic straps combined with high-density foam, while the backrest uses medium-resilience foam. The solid wood details on the base and legs.

FINISHES

Finishes and coatings are available according to the price list. There is a wide variety of finishes and coatings to create unique pieces.
