MARE

DESIGNED BY
SÉRGIO BATISTA

MARE

Inspired by the gentle curves of the waves meeting the shore, the Mare armchair is a celebration of the balance between form and functionality. It pays homage to the calming power of nature and the ability to create spaces that evoke the serenity found by the seaside, enveloping in an ocean of comfort and elegance.

STRUCTURE

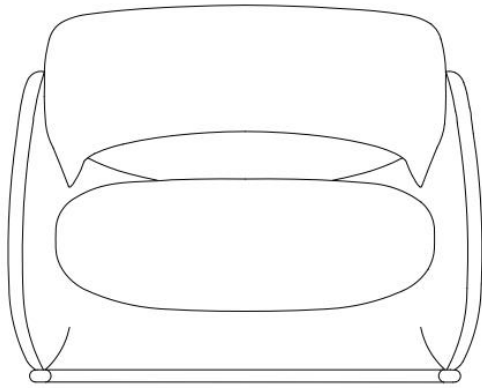

The structure of the Mare armchair is made of selected solid wood of the highest quality. Comfort is guaranteed by the medium density foam on both, the seat and back, which together with the wood create the volumes and curves of the piece. The piece is supported by a wooden base, which in addition to providing stability, contributes as a detail to the look.

FINISHES/COATING

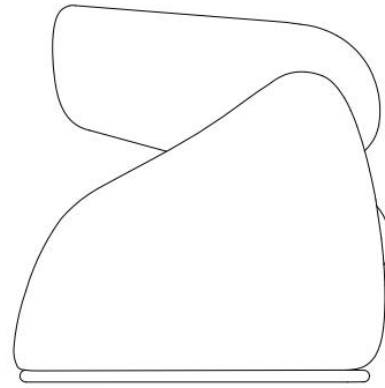

Finishes and coating available according to the price list. There is a wide variety of finishes and coating available to create unique pieces.
