LAPA

DESIGNED BY
STUDIO UULTIS

L A P A

Merging modernity with tradition, the Lapa armchair draws inspiration from Rio's iconic Arcos da Lapa. This chair is a celebration of Brazilian design, fusing historical influences with contemporary materials for a seamless blend of the past and present, evoking a harmonious, fluid aesthetic.

STRUCTURE

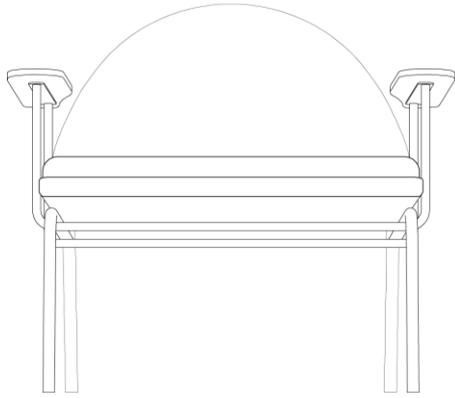

The Lapa armchair features a structural frame made from high-performance metal rods combined with premium, weather-resistant solid wood. The seat is cushioned with layers of high- and medium-density foam, while the backrest incorporates a nautical rope detail and a soft foam cushion wrapped in an Eco-soft foam blanket. The upholstery is protected by a waterproof layer beneath the outer fabric.

FINISHES/UPHOLSTERY

A wide range of finishes and upholstery options is available, allowing for customized pieces to complement any design vision.
