PARANOÁ

DESIGNED BY
SÉRGIO BATISTA

PARANOÁ

Inspired by the modernist architecture of Brasília and the futuristic vision of its urban planning, the Paranoá armchair features elegant lines, smooth curves, and a minimalist design that reflects the modern and functional aesthetics of the Juscelino Kubitschek Bridge, which spans Lake Paranoá.

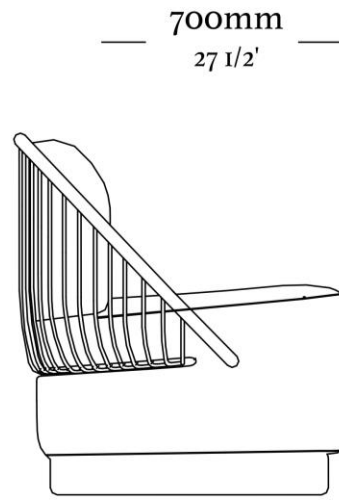

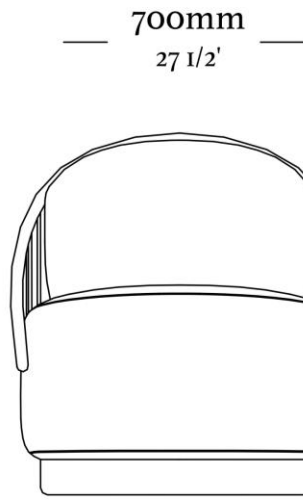

STRUCTURE

The structure is crafted from carefully selected, high-quality solid wood. The comfort layers include elastic straps and high-density foam in the seat, while the backrest features medium-resilience foam. Metal details are incorporated into the backrest of the armchair, adding a touch of sophistication.

FINISHES

A wide variety of finishes and coatings is available, as outlined in the price list, allowing for the creation of unique and customized pieces.
