ARA

DESIGNED BY
ESTÚDIO UULTIS

A R A

Ara is born from the gesture of gathering. Its tabletop extends like a continuous plane supported by columns that distribute weight with balance and clarity. Inspired by modernist sculpture, the design reveals the beauty of essential form and the honesty of materials. Between what grows and what endures, the piece asserts itself with quiet presence—becoming a place dedicated to encounter.

STRUCTURE

The Ara dining table features a base composed of columns in solid wood or lacquered MDF, with or without carved detailing. The tabletop is MDF finished with natural wood veneer and beveled edges.
