GRAVIOLO

DESIGNED BY
ACIÓLE FÉLIX

GRAVIOLA

The Graviola coffee table explores the dialogue between structure, transparency, and form. Its composition balances geometric clarity with organic expression, transforming a functional object into a sculptural presence within the space.

STRUCTURE

The base combines solid wood with a structure of articulated metal rods that support the tabletop. The top is available in concave fused glass or flat clear glass.

FINISHES

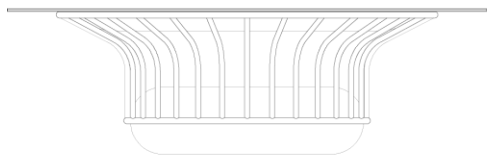

See price list for available finishes.
