CARAMBOLA

DESIGNED BY
ACIÓLE FÉLIX

CARAMBOLA

Inspired by the organic geometry of the fruit from which it takes its name, the Carambola coffee table translates natural symmetry into sculptural form. The handcrafted glass top expands the table's functionality while reflecting surrounding light, while the metal base opens like a fan beneath it, creating a dynamic play between structure and shadow.

STRUCTURE

The base is composed of articulated metal rods that support the tabletop. The top is available in concave fused glass or flat clear glass.

FINISHES

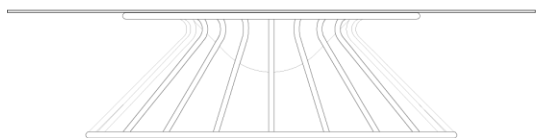

See price list for available finishes.
