DESIGNED BY
ACIÓLE FÉLIX

MAGNÓLIA

Inspired by the delicacy of the flower from which it takes its name, the Magnólia dining table translates softness and strength into furniture form. The handcrafted glass surface interacts with light and shadow, while the wooden central detail introduces warmth and identity.

STRUCTURE

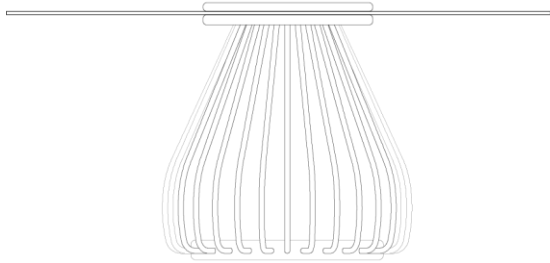

Metal tube legs connect to a central element crafted from solid wood. The glass tabletop is complemented by a central wooden detail.

FINISHES

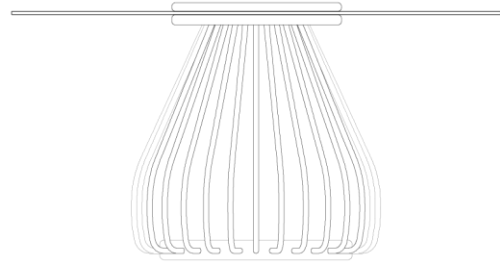

See price list for available finishes.
