SERENA

DESIGNED BY
ACIÓLE FÉLIX

SERENA

The Serena counter stool balances functionality and elegance through the dialogue between its metal structure and upholstered surfaces. Its visual lightness reflects the Brazilian modernist tradition, where technical precision and aesthetic clarity coexist. Designed to adapt easily to different environments, the stool maintains an understated presence while offering comfort and durability.

STRUCTURE

The Serena counter stool features a tapered metal rod structure. Upholstered seat and backrest incorporate high-density foam for comfort.

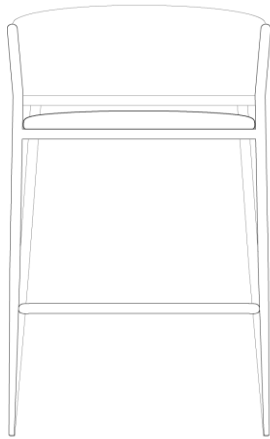

FINISHES/UPHOLSTERY

See price list for available finishes and upholstery options.
