ENLACE

DESIGNED BY
ESTÚDIO UULTIS

ENLACE

Enlace is defined by its sense of belonging rather than dominance. Curved forms naturally embrace the body, while wood introduces warmth and grounding. The piece reflects a dialogue between Brazilian modernism and Italian design traditions, where structure and comfort coexist with quiet sophistication.

STRUCTURE

The structure is composed of solid wood. The seat and backrest incorporate soft and medium-density foam layers, complemented by laminated metal details.
