M E A N D R O

DESIGNED BY  
SÉRGIO BATISTA

# M E A N D R O

---

Inspired by the winding paths of rivers, the Meandro sofa expresses movement and transformation. Its modular elements allow multiple configurations, reflecting the philosophy of the Simbiose collection where encounters and relationships shape the environment. Combining leather, wood, and organic forms, the design adapts naturally to different spaces while maintaining visual harmony.

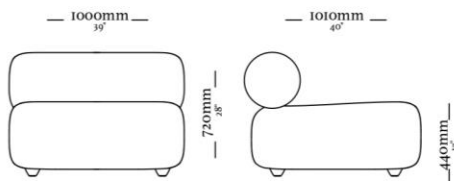

## STRUCTURE

*The frame is constructed from solid wood. The seat and backrest incorporate layers of medium and high-density foam*

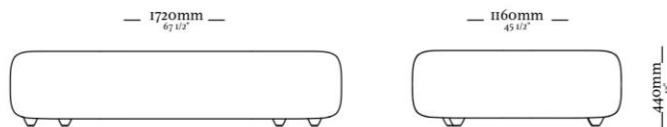

## FINISHES

*See price list for available finishes and upholstery options.*
