A L A D A

DESIGNED BY  
TIAGO CURIONI

# ALADA

---

The Alada armchair juxtaposes softness and precision. Upholstered volumes create comfort while the structural element acts like a wing supporting the form. The design references experimental furniture of the 1960s and 1970s while presenting a contemporary interpretation where organic shapes meet technical structure.

## STRUCTURE

*The frame is composed of solid wood. Elastic webbing, high-density foam, and soft foam create layered comfort throughout the seat and backrest*

## FINISHES / UPHOLSTERY

*See price list for available finishes and upholstery options.*

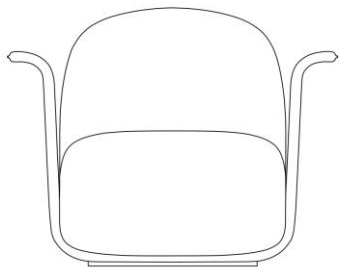

## CONFIGURATION

*Arm + Seat*
